SUMMARY

Software Engineer with 1+ year of experience building scalable, full-stack web applications using React, Node.js, and SQL/NoSQL databases. Strong foundation in Data Structures, RESTful API architecture, and AWS cloud deployments, focused on delivering high-performance, maintainable software solutions.

EDUCATION

BTech in Computer Science & Engineering

2021 – 2025

THDC Institute of Hydropower Engineering & Technology, Tehri

CGPA: 8.2/10

EXPERIENCE

Paawani Group

May 2025 – Present

Software Engineer

Roorkee, Uttarakhand

- Led the end-to-end SDLC across 5 internal products, translating requirements into scalable web applications.
- Developed responsive, high-performance web frontends utilizing React.js and Next.js for smooth user experiences.
- Built robust RESTful APIs and backend microservices using Node.js to power critical business workflows.
- Designed and optimized schemas across SQL and MongoDB databases for high performance and reliability.
- Managed AWS (EC2, S3, CDN) for 100K+ assets, cutting cloud costs by 20% and reducing latency.

Tehri District Administration

Apr 2024 – Oct 2024

Intern

Tehri Garhwal, Uttarakhand

- Co-developed 'Govolve' a SaaS platform connecting students with government opportunities.
- Led a 2-member team and developed responsive frontend using React.js.
- Collaborated with officials to ensure compliance, achieving 95% stakeholder satisfaction.

PROJECTS

Make My Education [Link](#)

- Built a full-stack MERN platform enabling students to search, filter, and compare 30,000+ colleges.
- Reduced component re-renders by 90%+ through state colocation, memoization, and component composition.
- Deployed and scaled the platform on AWS EC2 with S3 and CloudFront for fast, reliable CDN-based asset delivery.

CBTPrep [Link](#)

- Built a CBT exam platform that auto-extracts MCQs from uploaded PDFs using regex parsing.
- Designed a realistic exam simulator with server-side scoring, timing, and negative marking.
- Covered the app with 99 automated tests (unit + integration) run via CI on isolated MySQL.

SKILLS

Languages: JavaScript (ES6+), Java, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Design & Integration

Database: MongoDB, MySQL, Vector DBs (Chroma/Pinecone), Query Optimization

Tools & DevOps: Git, GitHub, AWS (EC2, S3), CI/CD Pipelines, Postman

Practices: Agile/Scrum, System Design, Data Structures & Algorithms, Code Review

AI & LLMs: RAG Architecture, LangChain, Prompt Engineering, Cursor, Claude

ACHIEVEMENTS

- Organized **CIESZYC 2024**, a college-level technical fest, leading a team of 150+ students. [Nov 2024]
- Served as **Student Coordinator**, Entrepreneurship Cell, THDC-IHET. [2022-2024]
- Secured **Top 20** in the National Entrepreneurship Challenge organized by **IIT Bombay**. [Feb 2024]
